

GREEN REMODELING LINKS & RESOURCES

BOOKS

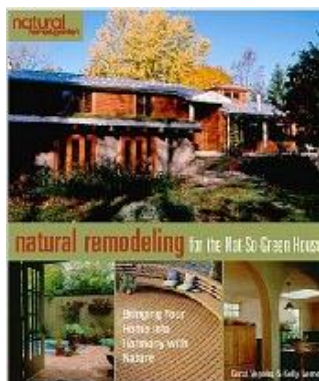

(A purchase from **Solaripedia Bookstore** helps support this **FREE** sustainable building resources site: <http://www.solaripedia.com/9/bookstore.html>, then browse by category, click on “Green Remodeling”)

Green Remodeling

Author: David Johnston

A comprehensive guide on how your remodel can make a difference. The book discusses simple green renovation solutions for homeowners, focusing on key aspects of the building, including foundations, framing, plumbing, windows, heating and finishes. Room by room, it outlines the intricate connections that make the house work as a system. For example, how new windows may affect the structure and mechanical systems of the rooms below, the health of the family and the future of old-growth forests.

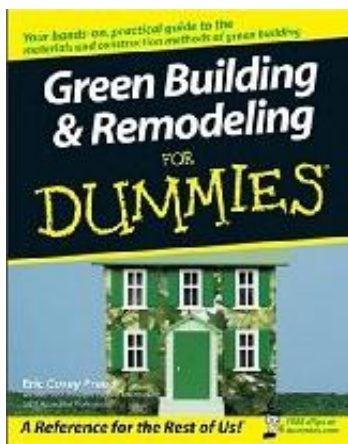

Natural Remodeling

Authors: Kelly Lerner and Carol Venolia

“....Packed with information and photos, and the first ever in full color to cover the subject....”

There are plenty of checklists and resource guides to go with all the glossy photos.” -- Kevin Taylor, The Pacific Northwest Inlander

Green Building & Remodeling For Dummies

Author: Eric Corey Freed

A one-stop guide to planning and building an earth-friendly remodel. Includes: Understand the lifecycle of building materials; Choose the right system for your green building project; Put together a green team; Work within your budget; Use green building methods and sustainable systems; Speed construction and reduce energy use and waste; Refinish old fixtures and materials; Beware of asbestos and lead-paint hazards; Avoid costly mistakes.
